

## Vice Chancellor's Message

**Dear Students, Faculty, Staff, and Visitors,**

It is my honor and privilege to welcome you to the official website of Hemwati Nandan Bahuguna Uttarakhand Medical Education University, Dehradun. As the Vice Chancellor of this esteemed institution, I feel immensely proud of its achievements and am committed to upholding its legacy of excellence in medical education and research. Working under the guidance of our dynamic, experienced and visionary **Chancellor, Lt. General (Retd.) Gurmit Singh, Honorable Governor of the State of Uttarakhand**, we strive to meet and go beyond the stated objectives of the University.

Nestled in the hills of Uttarakhand, the HNB Medical Education University draws its inspiration from the selfless act of **Lord MAHADEV** who consumed poison to save humanity from the dreaded designs that threatened its existence. With service and knowledge as our founding principles, we believe that we have the eternal primeval support of spirituality as we are nestled in the cradle of **Badri Vishal, Kedarnath, Hemkund Sahib, Haridwar** and pristine purity of **Gangotri and Yamunotri**.

Furthermore, HNBMU embodies the patriotic spirit and progressive social ideology of the eminent nationalist, social thinker, and freedom fighter **Shri Hemwati Nanadan Bahuguna**. It is not merely a physical institution made of bricks and mortar, but a manifestation of Shri Bahuguna ji's vision and Uttarakhand State Government's mission of delivering advanced medical education and highest standards of medical care to the underserved and unprivileged segments of the society, all at an affordable cost.

In the picturesque setting of Uttarakhand, H.N.B.U. Medical Education University is committed to providing a nurturing and inclusive environment where students can pursue their academic and professional aspirations with zeal and dedication. It will be our endeavor to engage the best teaching and research faculty to develop globally competitive and recognized humane healthcare personnel. Our faculty members are experts in their respective fields and work as dedicated mentors to guide and support our students in their academic journey. Our focus extends beyond academic excellence to encompass ethical values, and social responsibility for a holistic development of our learners.

Since its inception, the University, with an objective to become a nodal facility for medical education, has continuously strengthened and upgraded its medical facilities. While the ascending graph is promising, there remains room for improvement if the University is to find

its suitable place on the national map. Presently, the University stands on the cusps of consolidation, acceleration and innovation to attain the objective of becoming a world class medical education facility in the glorious precincts of **Dev-bhumi in Himalayas**.

Committed to upholding the highest standards of medical education, research, and healthcare delivery, we foster simultaneously a culture of innovation and continuous learning that integrates the local needs and global aspirations. Through our cutting-edge research initiatives, state-of-the-art infrastructure, and collaborations with leading institutions, we aim to spearhead advancements in healthcare and medical sciences benefiting the society at large.

#### **The objectives of the Institute shall be-**

- To create a Medical university matching the best in Bharat for providing medical care, educational and research facilities of the highest order in the field of medical sciences, its specialities, super specialities and other such areas, as may emerge in future, including continuing medical education;
- To provide medical education for multipurpose specialty and super specialty hospitals, including trauma and emergency services by upgrading the existing institutions, and to establish them as a Centre of Excellence for providing best quality treatment for patients, there in;
- To set a high standard of medical education by developing excellence in teaching and training at undergraduate, postgraduate and postdoctoral medical education and research;
- To do all such acts and things as may be incidental, necessary or conducive to further the object of the University, including a vibrant **Social Outreach Program, integration with the AYUSH systems and imparting medical education in Indian Languages**.

We are dedicated to providing comprehensive/ holistic medical care which includes general medical care, different super specialties of medicine and surgery, and other such advanced facilities which are grossly inadequate in many regions of the state. These will act as secondary and tertiary level centers for serving the poor population of this region at affordable cost.

Research is another major focus of our comprehensive training program. Despite being relatively young, the university has launched a robust research program. A dedicated Research cell has been established which is running on extramural and intramural research funding with support from state and national research funding agencies. To promote effective thesis work, we aim to

make training courses in research methodology and biostatistics compulsory for all postgraduate students.

With the steadfast support of the State Government and under the guidance of an **energetic and result-oriented Chief Minister** and a **dynamic Minister of Health, Medical Education and Higher Education**, we are confident in our ability to realize the objectives outlined above.

I invite you to explore our university and discover the myriad opportunities that HNBU Medical Education University has to offer. Whether you are a prospective student, faculty member, student, an Alumnus, or a visitor, I encourage you to engage with us, and participate in our academic and research endeavors, to be a part of our dynamic medical education system.

Together, let us work towards realizing our vision of shaping compassionate, competent, and socially responsible healthcare professionals who will lead the way in transforming healthcare delivery and improving the health and quality of life for all.

It is indeed a distinct honor and privilege to work with the highly dedicated team of the healthcare faculty and students at this prestigious university. Working in this dynamic environment is not only an exciting adventure but also a source of great pleasure. Being part of this growing institution, provides me with a valuable opportunity to contribute to a team that works tirelessly, driven solely by their motivation to witness the realization of their founders' vision.

I thank you all for your interest in this university and for your good wishes for the all-round development of this seat of learning. We look forward to welcoming you to our campus and embarking on a journey of knowledge, discovery, and service together.

Warm regards,

**[ Prof. M. L. B. Bhatt ]**  
**Vice Chancellor**
